

The following steps will help you resize your photo ready to upload, no additional software is required. **Important** – remember that your photo must be in landscape format.

- 1. In your internet browser (Chrome, Safari, Internet Explorer etc.) go to <u>www.picresize.com/</u>
- 2. Click 'Browse' to choose the picture you would like to resize.

| Select Picture | From Computer 🗸 | |
|-----------------------|---|---|
| Click 'Browse' and cl | noose a picture file OR drag a picture file here. | Browse Click 'Browse' to select a picture |

3. Click 'Continue' to edit your picture

| marmalade-festival-large-2.jpg | Click 'Continue' to edit your picture | Browse | |
|--------------------------------|---|--------|--|
| | Continue (Resize, Crop & Special Effects) | | |

4. Under "Resize Your Picture: Make My Picture" - chose "Custom Size..."

| Resize Your Picture: | | | | | | |
|----------------------|-----------------------|--------------|-------------------------|-------|---|--------|
| Make My Picture: | 50% smaller | • | Your Image | Width | | Height |
| | No change | | Original (in Pixels) | 1980 | х | 1109 |
| | 25% smaller | | Cropped | 1980 | х | 1109 |
| | 50% smaller | | Estimated Final | 990 | х | 554 |
| Chasse | 75% smaller | | | | | |
| Choose : | Fit to screen: 1280 | resolution | | | | |
| None | Fit to screen: 1024 | resolution | Equaliza | | | |
| ■ None | Fit to screen: 800 re | esolution | | | | |
| Frame Border | Custom Size | | Lomo Eff | ect | | |
| Oil Paint | Photo Slide | Polaroid NEW | Raise | | | |

5. Under Resize Your Picture: - "Width" enter **1200 pixels**, leave the height blank to ensure your image stays in proportion when it is resized.

| Resize Your Picture: | | | | |
|--|-------------------------|-------|---|--------|
| Make My Picture: Custom Size | Your Image | Width | | Height |
| Width 1200 Pixels V Height (Optional) Pixels V | Original (in Pixels) | 1980 | x | 1109 |
| | Cropped | 1980 | x | 1109 |
| | Estimated Final | 1200 | х | 672 |

6. Under **Save As**, ensure the **Image Format** is set to "JPG" and the **JPG quality** is set to "Better".

- 7. Click "I'm Done, Resize my Picture!"
- 8. The website will display your resized image dimensions and new image Filesize.

9. Click "**Save to Disk**" to download the resized image to your computer, ready to upload during the Australian Heritage Festival online registration.
