

In our walk we will walk along Prout St. Probaly named after Thomas Prout

Thomas Prout

Died 2 November 1914 miner aged 72, Father Thomas (miner), Mother Jane Daddow

Methodist

Born St Agnes Cornwall and arrived in Victoria 1862

Married Bendigo 1867 age 47 to Christina Jones

Children Lilia 27 Ada 24 in 1914

In 1891 he and Elizabeth lived in Quick St and was rated at Net Annual Value £13 with 4 residents

A house valued at £13 was most probably a 4 room weatherboard house

Isaac Payne

The example of Isaac Payne and his wife, Elizabeth Bailey demonstrates the high fertility of the first generation of Ironbark families and high rates of infant and child mortality.

They were married 12 April 1848 in Wiltshire aged 22 and 18.

Victorian Birth Returns						

In 1873 Isaac Payne was rated as a miner in Ironbark Gully on Crown Land (ie miner's right) at a net annual vale of £15 with 9 residents.

In 1891 Isaac Payne was rated as a miner in a land house off Victoria St in a Miner's Residence Area valued at NAV £14 with 6 residents.

This was also most likely a four-roomed weather board house.

Rate Assessment Books

The following are extracts from the 1890-91 Bendigo Rate Assessment Books and the 1900-01 Rate Assessment Books. The assessment books were the working document used to compile the rate books. A number survive from the nineteenth century. They are valuable as they list the number of residents in the house and if the house was on Crown land.

For most of the nineteenth century streets are not named. See if you can find Hayes St on the 1891 assessment book.

These records were found in the old Town Hall tower and are due to be lodged in the Public Record Office. The number of residents is missing in some of the 1891 entries as my photographic skills let me down photographing these records.

The enclosed map demonstrates that area was an intensively worked industrial mining area.
