

NATIONAL TRUST OF AUSTRALIA (NSW) POSITION DESCRIPTION

Role: Bush Regenerator
Department: Bushland Management Services (BMS)
Primary Location: Various Bush sites around Sydney (Nth, Central and South or West)
Reporting Manager: Site Supervisor
Employment Type: Casual

Organisation Overview

The National Trust of Australia (New South Wales) is the State's largest community based conservation organisation. The Bushland Management Services (BMS) division has been running continuously for over 38 years, providing a range of bushland management services to public and private landowners who require quality expertise to help manage conservation of bushland and biodiversity in the Greater Sydney region.

The goal of the National Trust's Bushland Management team is to advocate and implement best practice methods for natural area restoration and management of our natural areas.

Vision: To bring the heritage of New South Wales to life for future generations.
Mission: **Advocate** for the conservation of our built, cultural and natural heritage by engaging with the community and government.
Identify, conserve and protect our built, cultural and natural heritage by example, advice and support.
Educate and engage the community by telling our stories in ways that awaken a sense of place and belonging.

Primary Purpose

Undertaking a range of natural area restoration activities in bushland and reserve areas throughout Sydney

Hours of Work and Breaks

You will be employed on a casual basis. While work days are flexible, there is an expectation you will be able to work at least 3 days per week. The duration of a normal work day is 7.5 hours which is ordinarily performed between the hours of 7.00am to 3.00pm Monday to Friday. You are also entitled to ½ hour unpaid lunch break and a 15 min (paid) morning break.

Key Accountabilities

The position holder has responsibility for:

- Natural area restoration through the implementation of 'best practice bush regeneration techniques.'
