

Using the Lotterywest logo

A guide for grant organisations

The aim of this guide

Here you'll find copies of the Lotterywest logo available for download as well as guidelines on using the files appropriately.

Which format?

Our logos can be downloaded in two formats – EPS or PNG.

- EPS is the format for print reproduction. Use this option for press, general advertising, brochures, leaflets, signage and any other professional printing or high quality reproduction. The EPS format is not generally compatible with use on most PC's but is a standard format for the printing industry.
- PNG is a low-resolution format that is suitable for computer screen use, internally printed newsletters (e.g. using Microsoft Word or Powerpoint). It is also suitable for use on websites.

Which logo should I use?

Your choice of Lotterywest logo depends on where it is being used, and whether you can use colour or black and white only.

There are four versions of the Lotterywest logo for you to choose from. Wherever possible, our preference is to use version 1 (full colour).

Version 2 (reversed) should be used when placing a logo on a dominant or dark background.

A few 'don'ts'!

You should also be careful not to:

- Change the position of the sunset symbol on the logo;
- Change the size of the symbol;
- Distort the logo;
- Re-create the logo using different fonts;
- Use the 'Lotterywest' word on its own without the symbol; or
- Attach service or product descriptions to the logo.

See the examples below.

✗ Do not put the logo in a box or any other shape

✗ Do not squash the logo

✗ Do not stretch the logo

✗ Do not remove the sunset symbol

✗ Do not use the sunset symbol on its own

✗ Do not add a suffix to the logo
